19 July 2013

From: NACO

To: NEXCOM, BSX-1, DCOs, DCOS', ANACOs, DIRs, DIR-ds

Subj: Project Trackers

Colleagues,

Past practice has provided most members of the National Board a glimpse of the overall efforts of the National Staff only through the OPCOM reports distributed prior to N-Train and NACON. During the past eight months, a system of Project Trackers (spreadsheets) has been put into place. These outline the active projects and completed projects being worked on by members of the National Staff. These projects include work towards specific objectives outlined in the Auxiliary Strategic Plan.

Until now, only members of NEXCOM, BSX-1 staff and the National Staff have had access to these trackers. With this announcement, the audience is being expanded to include District Commodores and District Chiefs of Staff.

Action:

The Project Trackers are housed as spreadsheets on the cgauxnet file system. They are accessed via a login, which will be provided to the DCOs and DCOS'. DCOs and DCOS' will also receive instructions on how to open and read the trackers. After using the login, these files will be available in a read-only form. Access is available using PC, Apple, iPhone, and Android devices. Cgauxnet accounts will be created by the DNACO-ITP and credentials emailed to the primary email address (in the AUXDIRECTORY) for the DCOs and DCOS'.

In the next few days, expect to see an individual email from COMO Bruce Miller, DNACO-ITP with instructions on how to access and view the Project Trackers.

Direct questions about cgauxnet and Project Tracker access should be addressed to DNACO-ITP at bruce.miller@cgauxnet.us. General questions about the use of these trackers should be addressed to VNACO at mark.simoni@cgauxnet.us.

We look forward to increased organizational awareness as we share this access with you.

Very respectfully,

Thomas C. Mallison /s/
National Commodore
